NUMBER 40.

REGULATING RAILWAYS.

Senator Culom's Interstate Commerce Bill Reported to the Senate.

Its Stringent Provisions for Restricting Monopolies—An Elaborate Accompanying Report.

The report of Senator Culom's Select Committee upon Interstate Railroad Transportation, which was submitted to the Senate on the 15th of January, is a voluminous document which discusses the regulation of interstate railroads, and especially the question of the power of Congress to regulate interstate commerce. With the report Mr. Culom attached a bill regulating interstate commerce, which he asked might be referred back to the committee, and that the committee be directed to report a bill to the Senate.

The following is a brief synopsis of the bill:

After specifying the classes of carriers, or rather the kinds of traffic, to which the regulation applies, it provides that no carrier shall charge more than the sum which the same would have been if carried by railroads.

The gentleman rose and hurried from the room; but almost as soon as they reached the scene the women were there too. The boy's sister could not be restrained, and Mrs. Godwin signed to Gertrude to let her go. Anything was better than inaction.

Mr. Godwin's wad-hold and works were hardly a quarter of a mile from the hill. He thought of being followed by a shadowed man. He guessed at once that the boy had taken the train that his weight exhibited to the ladies' wonders of the wind-horse, and probably had gone to make his preparations. A servant seeking him when dinner was ready had discovered the accident and alarmed the village.

"Is there any hope?" asked Gertrude, in a trembling voice.

"No," replied her father, with a groan.

"I'm sorry," said the boy, "but I have given up all hope."

"The hill is very steep," said Mr. Godwin.

"I'd like to see him try." It would take a pluckier man than he is. Why, he wouldn't come within yards of the edge, Mrs. Godwin.

"He showed his usual good sense, Master Robert," said the lady's first reply.

"She has no such scruples over the Honister Crags, and brought back no end of flowers for Gertrude." But one thing I must say, that fellow Losford is a jolly ruffian, though he doesn't look it. Just a funksy girl, and nothing else. Will you give me ten cents? And Godwin's entrance.

"What ails you now, Bob?" cried his sister, coming up by some feminine instinct that her friend's face was hotter than a moment before; "you are a perfect *narrator* in fact, in like a *farce* in like that. I wish Mr. Losford would teach you manners."

## POLITICAL AND MISCELLANEOUS.

### The Supervisors.

We last week called the attention of our readers to the proceedings of the Board of Supervisors, promising in a brief review to notice some of their transactions for the past year. We desire and shall endeavor to examine the matters referred to in a business light and have no personal motive, except to do our duty to the taxpayers of the county. We first call attention to the fact that the Board of 1881 appointed a special committee "with unincumbered powers to investigate fully the matter of the robbery" etc. This committee reported the amount of the deficiency of ex-Treasurer Davis, which amount is repeatedly given in their proceedings and specifically noticed in a resolution offered by Supervisor Finn, at the special session which closed March 11th 1883, two months and more after Treasurer Woodburn had taken possession of the office. Here we ask, how did the Board ascertain this amount if there had not been a complete examination of the books and vouchers in that office?

Furthermore, on the 23d of April, the Board by resolution of Supt. Richardson empowered the prosecuting Attorney to employ an expert to examine the books during the entire term of Treasurer Davis, which was done, though no report has ever been made by the Board.

We assume then that perfect and complete examinations of the entire transactions of ex-Treasurer Davis had been made and reported to the board, first by a committee of their own, and next by the expert employed, but those reports were kept from the record, though the bills audited and paid show that a large sum of money had been expended by the committees in the special work.

We do not present care to say anything as to the amount expended in these investigations, as the matter is yet unsettled and may, in the end, show the entire wisdom of the Board and committee, but with the facts above enumerated we call your attention to the last annual session, commencing in October 1883 and closing with the adjourned session of two weeks ago. On the second day of the session a committee was appointed to settle with the Treasurer. Two days thereafter immediately after roll call, Supervisor Richardson gave notice that on the following morning he would move a final adjournment, it being shown that he considered the business of the session nearly completed, when on motion of Sup. Finn the Board adjourned till 2 o'clock P. M. to give the committee on settlement time to report. No report was ready in the afternoon and the Board adjourned to the next morning. During that day Saturday, no report was made and after transacting the business on hand, the Board adjourned to Monday P. M. when after roll call a petition was received and Sup. Finn moved an adjournment to the next morning to give the committee on settlement time to complete their report. No report was forthcoming that day, or the next, when the Board adjourned to the second Monday in January.

The committee were in session the entire week previous to the meeting of the Board, but as will be seen by the proceedings published last week were not yet ready with the report, and the first three sessions of the Board show no business transacted except roll call and the adoption of a motion to adjourn to give the committee time, and when finally the report is made, there is only given a partially itemized report of the quarter ending Jan. 1st 1883, as made by the committee, and a summary in one line, of the entire three quarters of Treasurer Woodburn's term. There appears of record no report of the treasurer in any form. Although the record shows that such report was received read and accepted Oct. 11. The report of the committee as recorded gives a balance forwarded Jan. 1st 1883 of \$11,838.01 and shows only \$9,320.52 as coming into the hands of Mr. Woodburn, making no statement concerning this difference.

The statute says, Sec. 481, Howell: "They shall cause to be made out and published yearly immediately after their annual meeting, in at least one newspaper if there be one published in the county, \* \* \* the accounts allowed, and a full statement of the amounts of the treasurer's account on the last settlement, as in his balance sheet and account current in making the settlement." Sec. 478 says: "It shall be the duty of every such Board of Supervisors, as often as once in each year, to examine the accounts of the treasurer of their county, and to ascertain and enter upon their records a full statement of such accounts."

With these plain provisions of statute in view, we ask why the entire report of Mr. Woodburn, which was completed at the proper time, is suppressed? Why was an expense of over \$200 incurred by the action of this special committee in examining the books of ex-Treasurer Davis, which had already been repeatedly done and reported upon?

No one claims that there is any fraud in the books of either of these gentlemen and we say that the entire work

of the committee should have been completed in a single day during the October session.

We do not impute dishonest motives to the members of the Board or the committee, but more charitably place the fault in a lack of business knowledge and the application of business principles in the transaction.

What the taxpayers most desire in the report of the Board is the financial part, and if from the report just published they can derive any satisfactory knowledge they are wiser than we.

### WASHINGTON LETTER.

(From Our Regular Correspondent.)

WASHINGTON, Jan. 18, '84.

**EDITOR AVALANCHE:**—Although the present Congress began quietly, proceedings at the Capitol became more animated with each week. In the Senate there has been an immense amount of oratory on the silver question from democrats who felt constrained to differ from the president and advocate continued coinage.

The majority of the House of Representatives, coerced by the contingencies of possible republican restoration before 1888, adopted the measure they once rejected, and now the House Presidential Succession bill is ready for the President's signature. The first division of the session on party lines, took place over this bill, leading to a little filibustering and several roll calls.

The opinion prevails among public men of all political shades that the present session will be the liveliest for many years, although it may not be marked by much legislation beyond its appropriation bills. It is thought there is no chance of the House and Senate agreeing to any general tariff bill, and on all questions of currency and coinage there is great diversity of opinion in both parties.

Some of the ablest leaders of the republican party are in the Senate and as the republicans retain control of that body they will protect and promote the interests of the party. Still it will be almost impossible for any measure, of a distinctively party character, to become a law during the life of the Forty-Ninth Congress. The democratic majority in the House and the republican majority in the Senate each stands as an effective bar to party legislation. There can be no bargain, no compromise, no agreement or arrangement by which any bill intended merely to carry out the pledges of a campaign platform, and manufacture political capital can escape defeat. The most inexperienced new member knows this as well as the veteran member, and the country knows it so thoroughly that it will not be disposed to tolerate a waste of time in attempts at the impossible. For this reason the Democrats, who are getting ready to agitate certain questions that promise no practical results, have been admonished to let them alone, and take up subjects on which both parties can agree.

In a Senatorial republican caucus the relations between the President and the Senate were discussed, and the action to be taken upon his nominations in cases of suspension, and particularly, the course to be pursued in regard to obtaining explanations for removals and appointments. It was practically decided that if the President and heads of Departments do not produce the required information, the nominations are to be shelved for the present. "We can stand it as long as the President can," said one of the Senators, "and if there is a deadlock, we are prepared for it."

Notwithstanding all that has been said and written on the subject of Civil Service appointments, the pressure for office is as great now as it has ever been. Office-seekers pay no attention to what is said to them by their congressional friends, and refuse to believe that the hands of Congress are in any way tied by the Civil Service law. Some of them refuse to take "no" for an answer, and continue to harass their endorsers day and night.

Senators have been discussing Nominations in connection with the Judicial Salary bill. One section of the bill provides that no person related within the degree of first cousin to a Judge of the United States shall be appointed by such Judge to any position in his court, and it also legislates out of office the relations now in. Senator Edmunds thought it would work great hardship and injustice to legislate out of office men who by experience and training had perhaps come to be the most capable and efficient persons who could be found to fill the offices. If so much was said of Judges who had appointed kinmen to office, he thought Senators should remember that they had provided for their own sons and other relatives in the same way. "Even this reform Administration," continued the Senator from Vermont—"this reform Administration, the picture of purity and grace, and everything that is lovely, has sent to the Senate for confirmation the nomination of a father and son to the same place, to exercise the functions of two offices, the one under the other."

On Saturday afternoon, social festivities at the White House were interrupted by the announcement of the sudden death of Miss Bayard, the eldest daughter of the Secretary of State. She was to have assisted at Miss Cleveland's reception at three o'clock P. M., and when, at two o'clock, she was called to dress for this occasion, she was found lying on the bed dead of heart disease.
